An efficient approach for figuring out a value is to send out a survey to your present customers. If these clients have already bought an e-book from you, ask for his or her opinion by way of price. Do this by creating a gross sales web page for the new book, but do not embrace a price on that page. Instead, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to check out costs by making a number of duplicate gross sales pages with different costs on each page. Be certain that your gross sales copy is exactly the same on every web page, and consists of your selling-deal with sentence. Then figure out for every web page the conversion ratio between guests to your web site and sales of your book. This will tell you what your optimum worth is.

In the end, if you've written a guide that solves a drawback or presents a brand new approach, your ebook will bring in each visitors and profits.
