In addition to selling your books assiduously online, there are several other methods that may enable you to sell more books.

One is to present something away without cost with your e book, such as a valuable bonus item. Or bundle several ebooks under one worth, which lowers the value for each book in the event that they have been bought separately.

An efficient approach for determining a value is to ship out a survey to your present customers. If these clients have already bought an book from you, ask for their opinion when it comes to price. Do this by creating a gross sales page for the brand new book, but don't embody a value on that page. As an alternative, add plenty of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to check out prices by creating a variety of duplicate gross sales pages with completely different prices on each page. Be certain your gross sales copy is exactly the similar on

each web page, and consists of your promoting-deal with sentence. Then work out for every page the conversion ratio between guests to your website and gross sales of your book. It will inform you what your optimum value is.

In the end, if you've written a e book that solves a problem or presents a brand new approach, your e book will usher in each traffic and profits. So remember to write that selling-handle sentence that sums up what downside your e-book solves and what the advantages of your 429 e book will be to the customers who purchase it.
