promotional materials, and each time anyone asks you about your ebook.

An effective method for figuring out a price is to ship out a survey to your current customers. If these clients have already purchased an e-book from you, ask for their opinion when it comes to price. Do that by creating a gross sales page for the new ebook, however do not embrace a price on that page. Another strategy is to check out prices by making a variety of duplicate gross sales pages with totally different costs on every page. Ensure your sales copy is precisely the same on each web page, and includes your selling-handle sentence. Then figure out for each web page the conversion ratio between guests to your web site and gross sales of your book. This will let you know what your optimum value is.

Finally, when you've written a e book that solves a drawback or presents a brand new approach, your ebook will usher in both site visitors and profits.
